Time: 9:00 - 3:00

Location: RESA Room 602

Course Description:

Fee: NC Members \$100 Non-Members

This training will teach you how to start using your interactive whiteboard. You'll learn how to orient the board, use your finger as a mouse, access the On-Screen Keyboard, use pens in the Pen Tray, and capture and save your notes into Notebook software. Find out how to use all the features of Interactive Boards that can be applied to all disciplines.

Instructor: Tom Reardon

RESA Contact: Amy Casper

Minimum 20 / **Maximum** 30

Registration Deadline: 8/18/10

Also see how to incorporate those features into the middle and high school curriculum. Find out how to incorporate graphing calculator emulators and screen shots into your class notes. Discover how to easily capture and place your daily class notes onto your website in pdf format and learn how to podcast the audio. Be amazed how you can easily pre-record your lessons as an electronic video for when you are not in class.

PL11065 Using Interactive Boards with the Graphing Calculator, TI-SmartView and Math Type PLUs 1

Date: September 2/3, 2010

Target Audience:

Teachers using interactive boards.

Time: 9:00 - 3:00

Location: PLC

Course Description:

Fee: NC Members \$225 Non-Members

This workshop will provide instruction on how to use the features on the various graphing calculators. But more importantly, learn how to seamlessly integrate the use of graphing technology into your daily lesson plan. Allow your students to experience the "Power of Visualization" provided by graphing calculators. Get and retain their interest by showing how to mathematically model data. Obtain dozens of mathematical activities that can be used immediately in your room.

Instructor: Tom Reardon

RESA Contact: Amy Casper

Minimum 20 / **Maximum** 30

Registration Deadline: 8/20/10

Learn how to use TI's latest graphing calculator emulator for the 84+, TI, SmartView, from one of the teachers who helped to develop the software. Also find out how to use emulators for the TI-73, TI-83+, TI-89, TI-92+, and the Voyage 200. Be able to use the APPS right on your computer screen or right on your SMART Board. Very powerful for teachers.....and their students.

In 2-3 hours, you can learn how to use and incorporate many of the features of Math Type. Use these features to your advantage to create the best assessments and worksheets (gifts). Learn many of the cool features and how to cleverly use them.

PL11016 Classroom Management/Discipline Strategies for the Classroom PLUs 1

Date: September 9, 2010; February 10, 2011

Target Audience:

Administrators, teachers, counselors, paraprofessionals

Time: 9:00 - 3:00

Location: Professional Learning Center

Course Description:

Fee: NC Members \$225 Non-Members

This is a model of a school-wide discipline program that empowers teachers to prevent problems, minimize power struggles, de-escalate discipline problems, and manage disruptions. This leads to increased instructional time and ultimately improved student performance. Participants will gain numerous techniques and practical strategies that can be implemented immediately.

PL11020 Counselor's Consortium

PLUs 1

Date: September 14/15, 2010
Time: 9:00 - 3:00
Location: Professional Learning Center
Fee: NC Members \$225 Non-Members

Target Audience:
Counselors

Course Description:

Positive Behavioral Intervention & Support: Improving student academic and behavior outcomes is about ensuring all students have access to the most effective and accurately implemented instructional and behavioral practices and interventions possible. Participants will be provided an operational framework for achieving these outcomes. This is not a curriculum, intervention, or practice, but a decision making framework that guides selection, integration, and implementation of the best evidence-based academic and behavioral practices for improving important academic and behavior outcomes for all students. In general, School wide PBS emphasizes four integrated elements: (a) data for decision making, (b) measurable outcomes supported and evaluated by data, (c) practices with evidence that these outcomes are achievable, and (d) systems that efficiently and effectively support implementation of these practices.

Course Description:

Tuesday, October 26, 2010: Continued registration with the start of the conference at 9:00 a.m. Today will be an overview of the city of Colquitt, Georgia and the cultural tourism that has been developed there. Storytelling plays a big part in the creative outlets that attract people to Colquitt and so we want it to be a big part of the conference. Get ready for some great information and inspiration! Opening ceremonies will be held in the evening on this first day.

Wednesday, October 27, 2010: After hearing about Colquitt's story and how it has developed and impacted the city, today we will hear from other projects that have used the arts to unite young and old; rich and poor; to revitalize everything from their towns to their souls; and to break down racial and social boundaries. Artists, organizers, and participants will share the outcome of their projects and what it has meant to those involved.
