

# DATA ANALYSIS WORKSHOPS

## The purpose of Data Workshops

- create professional learning teams
- help leaders and teachers better manage data
- focus attention on student learning and classroom instruction
- examine student data and all data of value to school improvement
- learn to become better observers and researchers by using data results

Data teams can examine all content area data.  
Math, ELA, Reading, Science,  
Social Studies

To schedule a Data Workshop contact  
Kelly Tabb at 229-255-2781  
ktabb@swresa.org

Margie Jordan at 229-221-3779  
mjordan@rose.net

## Workshop Schedule

- One hour orientation after school or during planning time
- One full day of training
- One hour follow up at the end of 45 day action plan

At the workshop your team will be engaged in reflective collaboration, focusing primarily on improving student learning, studying relevant data, observing patterns in the data, and shaping directions for school improvement.
